Ein Sof; is the divine origin of all created existence, in contrast to the **Ein** (or Ayn), which is infinite nothingness. It was first used by Azriel ben Menahem, who, sharing the Neoplatonic view that God can have no desire, thought, word, or action, emphasized by it the negation of any attribute.

Before there was a god, there was a tree; And it nurtured the universe, gave shade, shelter and gave the manifestation of god in the form of light. Borning God and all his forms physical, mental and spiritual. His Soul. The Tree is known as Ein Sof "The Endless One" or "Infinity".

The source of all life; Though this does not contain answers you face in this world. The answer is what is deep unconscious within you, your relation with god, your world and your truths. Absent or not. You are merely an extension or a vessel for god to see through. Your life is his and the experience you gain is your happiness as well as his.
